## Code 5504

The LASER CLEAR transparent 707 PLASTIC MOUNT (707P) is mounted on a Perspex stand for easy portability

For your convenience it already comes mounted onto the stand and is complete with the Snap on connector attached.

The other end of the RG 174 cable has an FME female (Code 833) attached, and we also have a range of adaptor plugs / patch leads available for it to match your specific data modem

The perspex stand measures H x 200 mm, W x 150mm and base is 80mm
